

# Sprint 4 Report

Decentralized Application Framework (DAPPF)

Kirill, Anthony, Garrett, Shishir, Vincent

11/29/21

## Actions to stop doing:

- The team should add comments about code when it is written, rather than later when it's harder to remember.

## Actions to start doing:

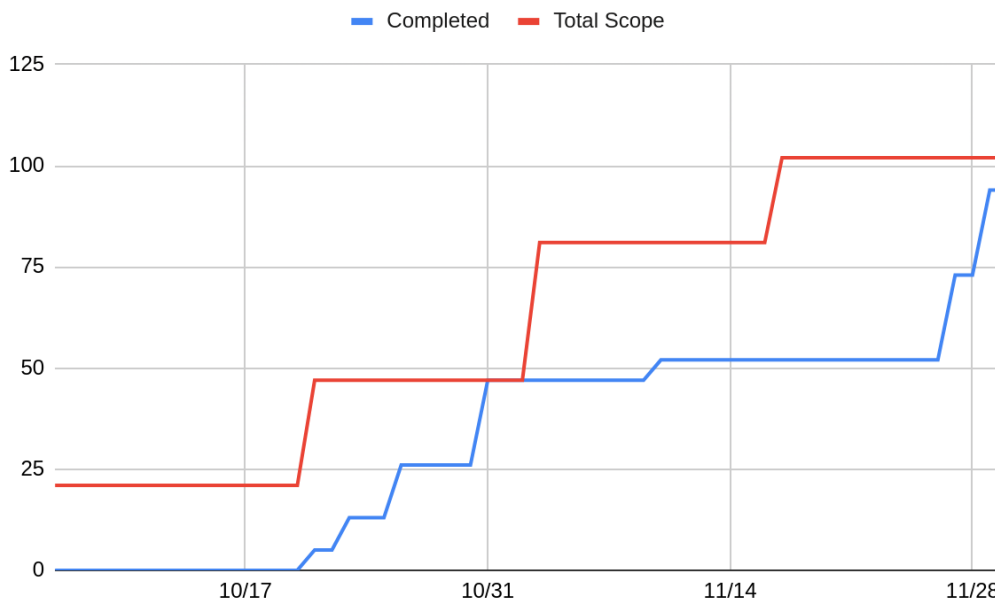

- The team should start working on improving communication outside of meetings, and give progress updates when they are not able to attend meetings.

## Actions to keep doing:

- The team should keep meeting consistently to make progress and ask questions when we need clarification.

## Work completed/not completed:

- Completed:
  - “As a developer, I would like to queue potential requests”
  - “As a developer, I would like to bind event listeners”
  - “As a developer, I would like to implement runnables”
- Not Completed:
  - “As a developer, I would like to cache my user’s data”
